Broadband/IT Project Highlights:

Department of Technology and Communications

- **Broadband Expansion:** With current active projects that the County has a hand in (either providing match or receiving a grant), over 3,900 addresses will be served with wired service (either fiber optic or cable broadband service). Of those, 838 have been served so far.
- **Chromebook Grant/Project:** This is a grant to distribute Google Chromebooks to households that qualify based on income (at or below 200% of the federal poverty rate). Limit one per USPS address in Maryland. Awarded/Distributed: 2,200 units through the Ruth Enlow Library of Garrett County.
Visit www.garrettcounty.org/broadband/devices for more information.
- **EDA Grant/Project (Economic Development Administration):** This is a middle-mile fiber project to build from Oakland south along Rt. 219, east on Rt. 50 to Table Rock, then to Mettiki and Savage Industries.
 - The fiber will be managed by the Maryland Broadband Cooperative, so any Internet Service Provider will be able to use the fiber to provide service along the route and along side roads.
- **CDS Grant/Project (Congressionally Directed Spending “earmark” managed via USDA ReConnect program):** This is a middle-mile fiber project to work with Declaration Networks Group to build on their network in the Rt. 135 area. Funding will extend their fiber network along side roads to reach additional addresses.
- **Subsidy Grant/Project from Appalachian Regional Commission:** This is a project that provides a subsidy to ISPs to build to homes and businesses that are too far from existing infrastructure (affectionately known as the “long driveway” problem). The budget for each project includes:
 - ISP's normal contribution per connection
 - Customer contribution (if possible)
 - Subsidy from this program
 - So far, 15 projects have been approved, covering 25+ addresses
